Planning

Design your Network

(<https://commotionwireless.net/docs/cck/planning/design-your-network-every-network-tells-story>)

Wireless Challenges

(<https://commotionwireless.net/docs/cck/planning/wireless-challenges>)

Survey Your Neighbors

(<https://commotionwireless.net/docs/cck/planning/survey-your-neighbors>)

Get the Word Out: Flyer Design

(<https://commotionwireless.net/docs/cck/planning/get-word-out-flyer-design>)

Identify Neighborhood Skills

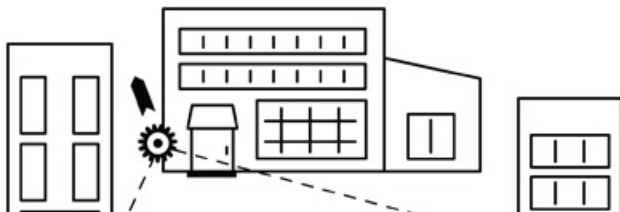

(<https://commotionwireless.net/docs/cck/planning/identify-neighborhood-skills>)

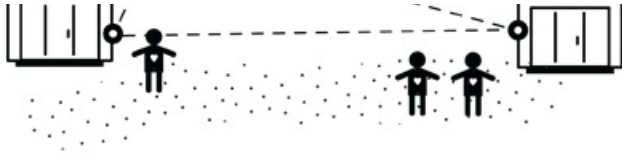

Inventory the Neighborhood

(<https://commotionwireless.net/docs/cck/planning/inventory-the-neighborhood>)

Construction Elements

(<https://commotionwireless.net/docs/cck/planning/design-your-network-construction-elements>)

These simple construction elements can help you make flyers and diagrams for your network. If you're on a computer, you can copy and paste the elements into your workspace. The elements also work fine with scissors and glue.

MATERIALS + SUPPLIES NEEDED

Paper

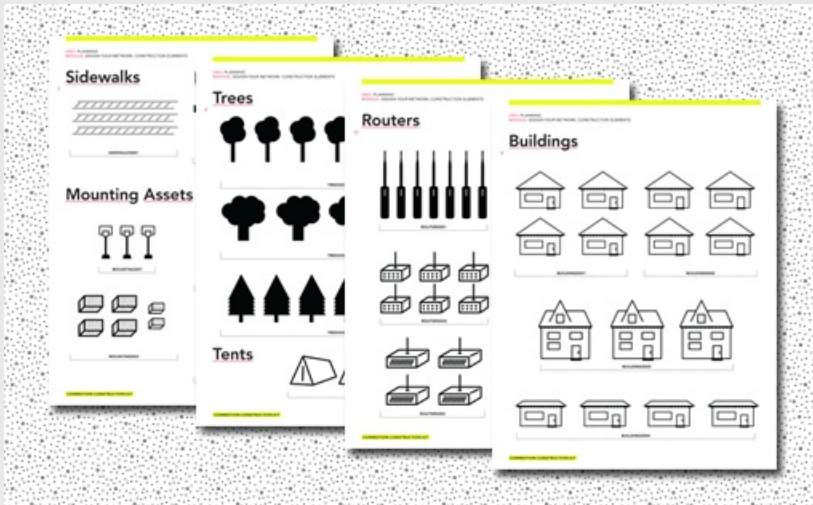

Scissors

Glue stick

Computer (optional)

Graphic Design, presentation, or drawing software (optional)

Graphics

Download a complete collection of graphic elements you can use in your flyers and diagrams (as a PDF).

MODULES

If you wish, use this module to complete "[Get the Word Out: Flyer Design](https://commotionwireless.net/docs/cck/planning/get-word-out-flyer-design) (<https://commotionwireless.net/docs/cck/planning/get-word-out-flyer-design>)" and "[Design your Network: Every Network Tells a Story](https://commotionwireless.net/docs/cck/planning/design-your-network-every-network-tells-story) (<https://commotionwireless.net/docs/cck/planning/design-your-network-every-network-tells-story>)".

External Resources

If you want to make a diagram with these Elements on a computer, you can find free, open source graphic design programs available online. Look for Inkscape for drawing diagrams and Gimp for working with photos. Google Docs also has a free drawing tool.

thenounproject.com (<http://thenounproject.com>) has a graphics that you can use along with these Elements.
